

ServiceNow Training Practice

Advance Your Team, Accelerate Your ROI

Are you looking to improve your organization's overall efficiency and maximize your ROI? Let our Training and Education team help you accelerate **Adoption** of the ServiceNow platform within your enterprise.

Our approach to training is simple, convenient, timely, and cost-effective.

At InSource, we specialize in a training strategy that can be customized to align with your organization's specific needs and goals.

Our Training Team Differentiators:

- ServiceNow Authorized Training Partner with Certified Trainers
- Engaging and energetic trainers keep the focus on learning and adoption of the key concepts covered in class
- Years of experience implementing and training on ServiceNow

Our Training Course Differentiators:

- Custom ServiceNow Training Courses and Technology Workshops
- Virtual, On-Site and Recorded Video Course Delivery Options
- Training Tailored to Your Implementation & Customization of ServiceNow

Authorized Training Partners

We have developed impactful workshops and courses that will empower your team with the necessary knowledge and skills to increase productivity. This will not only accelerate the organization's time to value, but also increases the adoption of this new framework within the Enterprise. We work with your process owners to grasp your training needs and provide engaging, full service training to your end users, fulfillers and/or internal trainers, regardless of experience level in the platform or the ITIL framework.

It is proven through innovative and engaging training you can:

- Increase User Adoption
- Encourage Appropriate Software Utilization
- Accelerate Time to Value on Investments
