

INSOURCE and PURE STORAGE. Partnering for world-class storage solutions.

Pure Storage is the leading provider of flash storage solutions.

InSource provides best-of-breed technology solutions for our clients. We partner with the top companies in the world to deliver the solutions that transform the way our clients do business. Our storage leadership team brings a combined 40 years of data storage solutions experience.

Through their innovative approach, Pure Storage solutions can improve both your business value and your IT operation.

Pure Storage's solutions simplify and streamline storage resources, driving efficiency and leading to quicker results. This gives your company an innovative edge, allowing you to bring your products to market quicker. Real-time analytics ensure that the results you seek are right at your fingertips.

Pure Storage's all-flash solutions significantly reduce costs as well: storage costs decrease on average by 50%, and management costs by 90%.
